Career Objective

Motivated and detail-oriented Computer Science graduate with a strong foundation in Python Full Stack Development, web technologies, and database management. Skilled in developing responsive web applications using Python, ReactJS, JavaScript, and SQL. Eager to begin a career as a Software Developer where I can apply my technical skills, contribute to innovative projects, and continuously enhance my knowledge while delivering high-quality solutions in a collaborative environment.

Technical Skills

Programming Languages: Python, JavaScript, SQL

Front-end Technologies: HTML5, CSS3, ReactJS, Bootstrap 5, Tailwind CSS

Backend Technologies: Python

Database: SQL, SQLite3

Core Concepts: Object-Oriented Programming (OOPs)

Tools: Git, GitHub

Internship Experience

Python Full Stack Development Intern

AchieversIT — 6 Months

- Developed full-stack web applications using Python, ReactJS, JavaScript, HTML, and CSS.
- Built and integrated RESTful APIs to connect frontend interfaces with backend services.
- Designed responsive and user-friendly interfaces using ReactJS and Bootstrap.
- Managed database operations and performed CRUD functionalities using SQL.
- Utilized Git and GitHub for version control, code management, and team collaboration.
- Participated in the complete software development lifecycle, including development, testing, and deployment.

Technical Projects

Advanced Cybersecurity Solutions for Healthcare SDN's Using AI/ML

Tech Stack: Python — Machine Learning — HTML — CSS — Bootstrap — SQLite3

- Developed an AI-powered cybersecurity solution to enhance security and monitor threats in healthcare Software Defined Networks (SDNs).
- Built a system capable of detecting potential network threats and improving the protection of sensitive healthcare data.
- Designed and developed a responsive web interface using HTML, CSS, and Bootstrap with Python backend integration.
- Utilized SQLite3 for efficient storage and management of network-related data.
- Improved system reliability by enabling real-time monitoring and analysis of network activities.
- Collaborated on developing a secure and scalable solution to strengthen healthcare network infrastructure against cyber threats.

Travel Booking Application

Tech Stack: ReactJS — JavaScript — HTML5 — CSS3 — Bootstrap

- Developed a full-stack travel booking application with authentication and booking management.
- Implemented REST APIs for frontend and backend communication.
- Designed responsive UI using React and created admin dashboard for user management.
- Applied reusable components and state management using React Hooks.

Education

B.Tech – Computer Science and Engineering

2021 – 2025

Visvodaya Engineering College, Kavali

CGPA: 7.0

Intermediate

2019 – 2021

Vignana Bharathi Junior College, Chirala

74%

SSC

2019

Vignana Bharathi High School, Chirala

GPA: 9.0 / 10.0

Certifications

- EXCELR – Python Full Stack Development Certification
- NPTEL – Cloud Computing Certification

Soft Skills

- Strong problem-solving and analytical thinking
- Quick learner with a positive attitude
- Team collaboration and effective communication
- Customer-focused approach to building user-friendly applications

Declaration

I hereby declare that the information provided above is true and accurate to the best of my knowledge and belief.
